Introduction. 1091
School attendance by age 1091
Color and nativity 1092
Urban, rural-farm, and rural-nonfarm population 1092
Gainful employment, and school attendance 1092

DIAGRAMS

School attendance of the population 5 to 20 years old: 1930 1093
School attendance by single years of age: 1930 and 1920 1093
School attendance by single years of age from 5 to 20, by color and nativity: 1930 1093
School attendance of the population 7 to 13 years old, by color and nativity: 1930 and 1920 1093

TABLES

UNITED STATES

1. School attendance by sex and age, for the United States: 1930 and 1920 1091
2. School attendance by color and nativity, for the United States: 1930 1092
3. School attendance by color and nativity, for the urban, rural-farm, and rural-nonfarm population of the United States: 1930 1092
4. School attendance of the population 5 to 20 years old, by color, nativity, and sex, for the United States: 1890 to 1930 1094
5. School attendance by sex, for white, Negro, and other races, for the United States: 1850 to 1880 1095
6. School attendance by color, nativity, sex, and age periods, for the United States: 1930 1095
7. School attendance of the population 7 to 20 years old, by color, nativity, age, and sex, for the United States: 1930, 1920, and 1910 1096
8. School attendance by single years of age from 5 to 20, by color, nativity, and sex, for the United States: 1930 1097
9. School attendance by single years of age from 5 to 20, by color, nativity, and sex, for the United States: 1930, 1920, and 1910 1098
10. School attendance by color, nativity, sex, and age periods, for the urban, rural-farm, and rural-nonfarm population of the United States: 1930 1099
11. School attendance of the population of minor races, by sex and age periods, for the United States, urban and rural: 1930 1100

DIVISIONS AND STATES

12. Total number of persons attending school, by age periods, by divisions and States: 1930, 1920, and 1910 1101
13. School attendance of the population 7 to 20 years old, by sex, by divisions and States: 1930, 1920, and 1910 1103
14. School attendance of the population 7 to 13, and 14 and 15 years old, by divisions and States: 1930, 1920, and 1910 1104

DIVISIONS AND STATES—Continued

Page

15. School attendance of the population 16 and 17, and 18 to 20 years old, by divisions and States: 1930, 1920, and 1910 1105
16. School attendance of the native white population 7 to 20 years old, by parentage, by divisions and States: 1930, 1920, and 1910 1106
17. School attendance of the foreign-born white and the Negro population 7 to 20 years old, by divisions and States: 1930, 1920, and 1910 1107
18. School attendance of the native white population, by parentage and age periods, by divisions and States: 1930 1108
19. School attendance of the foreign-born white and the Negro population, by age periods, by divisions and States: 1930 1109
20. School attendance by color, nativity, sex, and age periods, by divisions and States: 1930 1110
21. School attendance by single years of age from 5 to 20, by sex and by color and nativity, by States: 1930 1122
22. School attendance of the population of minor races, by age periods, by States: 1930 1132
23. School attendance by color, nativity, sex, and age periods, for the urban, rural-farm, and rural-nonfarm population, by States: 1930 1133

PRINCIPAL CITIES

24. School attendance by color, nativity, sex, and age periods, for cities of 500,000 or more: 1930 1143
25. School attendance by single years of age from 5 to 20, by sex and by color and nativity, for cities of 500,000 or more: 1930 1147
26. School attendance by color, nativity, sex, and age periods, for cities of 50,000 to 500,000: 1930 1151
27. School attendance of the population of minor races, by age periods, for cities of 100,000 or more: 1930 1170
28. School attendance by sex and age periods, for cities of 25,000 to 50,000: 1930 1171

SCHOOL ATTENDANCE AND OCCUPATIONAL STATUS

29. School attendance for persons 10 to 24 years old, by sex, color, age, and occupational status, for the United States: 1930 1180
30. School attendance for urban, rural-farm, and rural-nonfarm population 10 to 24 years old, by sex, color, age, and occupational status: 1930 1182
31. School attendance for persons 10 to 24 years old, by sex, age, and occupational status, by States: 1930 1186
32. School attendance for the Negro population 10 to 24 years old, by sex, age, and occupational status, for the Southern States: 1930 1195
33. School attendance for persons 10 to 24 years old, by sex, age, and occupational status, for cities of 500,000 or more: 1930 1197
34. School attendance for the population 10 to 24 years old, by sex, age, and occupational status, for cities of 25,000 to 500,000: 1930 1200

CHAPTER 12.—SCHOOL ATTENDANCE

INTRODUCTION

The statistics of school attendance obtained in the census of 1930 are based upon the answer to a question on the Population Schedule as to whether the person enumerated had attended school or college at any time between September 1, 1929, and the census date, April 1, 1930. If the person had attended any kind of school, college, or other educational institution at any time within the period in question, an affirmative answer was to be made. The total number of persons returned as attending school is therefore larger than the number who were in attendance at any one time between September 1, 1929, and April 1, 1930.

In 1920 the question was asked in practically the same form, though since the census date was January 1 (instead of April 1) the period covered was somewhat less and the returns may have been somewhat smaller than they would have been if the inquiry had been made in April. It is believed, however, that the difference is very small and that the figures for 1930 are fairly comparable with those for 1920 and for the earlier censuses, except possibly those of 1890 and 1900. At these two censuses the enumerators were required to ascertain not only the fact of school attendance, but also the number of months of attendance. In some instances the person from whom the enumerator obtained his information would not know the number of months of school attendance, even though he knew the child had attended school. In a few of these cases the enumerator, since he could not make a complete report, probably made no report at all with respect to school attendance. The returns for 1890 and 1900 are therefore doubtless less nearly complete than those for the subsequent censuses and perhaps less nearly complete than those for the earlier censuses. In the censuses prior to 1890, and also in 1910, as well as 1920, the general form of the inquiry on school attendance was the same as in 1930.

Statistics on school attendance for continental United States are presented in this chapter by States and for cities of 25,000 or more. Less detailed statistics are presented for counties and for incorporated places of 10,000 or more in Volume III of the Fifteenth Census Reports on Population; and statistics for the outlying territories and possessions enumerated at the Fifteenth Census are presented in the Report on Outlying Territories and Possessions.

School attendance by age.—The ages of compulsory school attendance vary from State to State, beginning at 6 years in 2 States, 7 years in 29 States and the District of Columbia, and at 8 years in 17 States. The main body of pupils attending the elementary schools (grades 1 to 8) are included in the group 7 to 13 years of age, for which statistics are presented in somewhat more detail in the accompanying tables than for the other age groups. Very significant changes have taken place, however, in the percentage of school attendance in those higher age groups representing pupils in secondary schools. The school attendance figures are summarized by single years of age from 5 to 20 in Table 1.

TABLE 1.—SCHOOL ATTENDANCE BY SEX AND AGE, FOR THE UNITED STATES: 1930 AND 1920

SEX AND AGE	1930			1920		
	Total number	Attending school		Total number	Attending school

16 and 17 years	2,324,067	1,347,533	58.0	1,925,264	876,528	45.5
18 to 20 years	3,485,164	711,644	20.4	2,833,335	416,804	14.7

Color and nativity.—The differences in the proportion attending school as between one and another of the color and nativity classes for which census statistics are presented are due in part to the extent to which these classes are found in urban and rural communities —or on farms and elsewhere. The foreign-born white and the native white of foreign or mixed parentage are found largely in urban communities, in which school attendance begins, and in general ends, at somewhat earlier ages than in rural communities. The native white of native parentage and the Negro population, on the other hand, are found more largely in the rural areas.

The United States totals for school attendance are presented by color and nativity in Table 2.

TABLE 2.—SCHOOL ATTENDANCE BY COLOR AND NATIVITY, FOR THE UNITED STATES: 1930

COLOR AND NATIVITY	PERSONS 5 TO 20 YEARS OLD			PERSONS 7 TO 13 YEARS OLD		
	Total number	Attending school		Total number	Attending school	
		Number	Per cent		Number	Per cent
All classes	38,387,032	26,849,639	69.9	17,209,566	16,398,400	95.3
White	33,536,777	23,969,129	71.5	15,065,790	14,547,737	96.6
Native	32,835,801	23,579,380	71.8	14,856,438	14,343,660	96.5
Native parentage	24,080,683	17,288,107	71.8	11,029,603	10,594,986	96.1
Foreign or mixed parentage	8,755,118	6,291,273	71.9	3,826,835	3,748,674	98.0
Foreign born	700,976	389,749	55.6	209,352	204,077	97.5
Negro	4,128,998	2,477,311	60.0	1,811,015	1,580,624	87.3
Other races	721,257	403,199	55.9	332,761	270,039	81.2

Urban, rural-farm, and rural-nonfarm population.—Because of the marked differences between urban and rural communities in regard to school facilities and also in the composition of their population, statistics for school attendance are presented for these three population groups in several of the tables.

Urban population, as defined by the Census Bureau, is in general that residing in cities and other incorporated places having 2,500 inhabitants or more, the remainder being classified as rural. In three of the New England States, New Hampshire, Massachusetts, and Rhode Island, towns (townships) are classified as urban if they have a population of 2,500 or more and certain urban characteristics; and a few large and densely populated townships in other States are likewise classified, even though not formally incorporated as municipalities.

In addition to the classification of the population as urban and rural, the rural population is further subdivided into rural-farm and rural-nonfarm, on the basis of the replies to a question reading "Does this family live on a farm?" The rural-farm population includes all persons living on farms in the rural areas. The rural-nonfarm or "village" population is made up largely of persons living in small towns or villages, both incorporated and unincorporated, though in many areas there are considerable numbers of families living in the open country but not on farms.

The school-attendance figures for these urban and rural areas are summarized in Table 3.

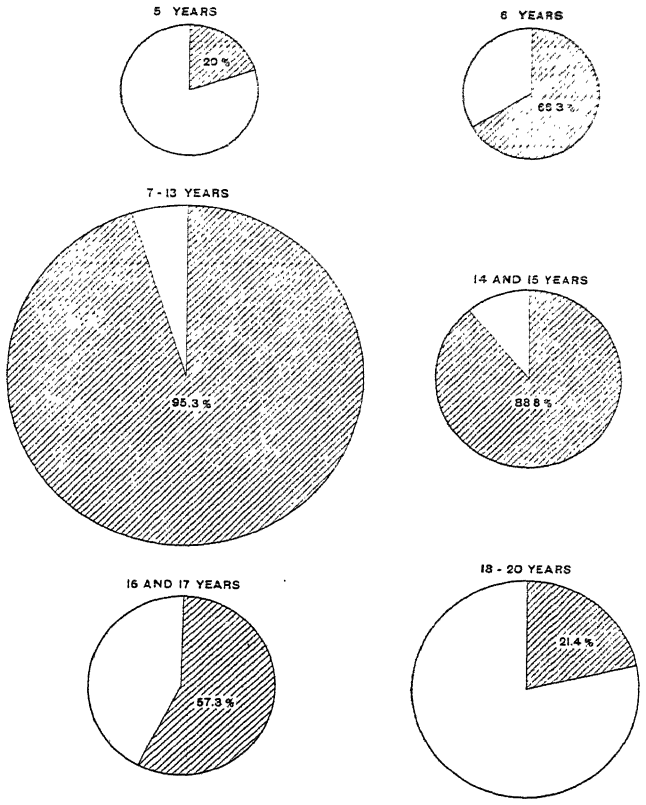

TABLE 3.—SCHOOL ATTENDANCE BY COLOR AND NATIVITY, FOR THE URBAN, RURAL-FARM, AND RURAL-NONFARM POPULATION OF THE UNITED STATES: 1930

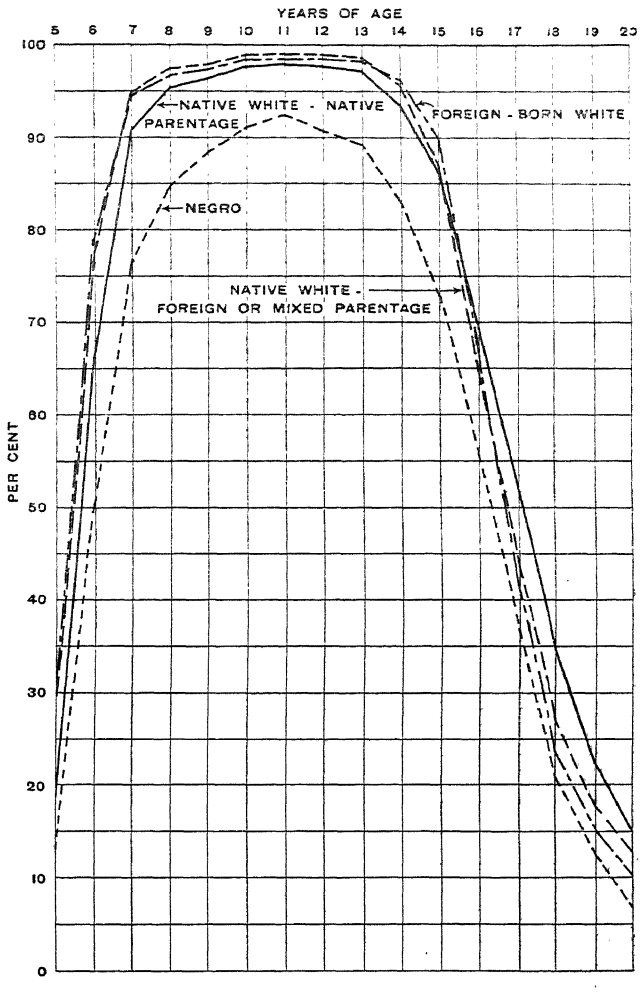
Gainful employment and school attendance.—For persons from 10 to 24 years of age a tabulation of school attendance in combination with occupational status has been made; that is, the school attendance data have been tabulated separately for persons returned as gainfully occupied and for those not gainfully occupied. One of the main objects of this tabulation is to show the number of young persons past the compulsory school attendance age who are neither attending school nor engaged in a gainful occupation. The total number of persons 19 years of age in this group, for example, is made up rather largely of young men and young women seeking their first jobs. The data are especially significant, therefore, in connection with the statistics of unemployment. In the tabulations for females separate figures are presented for those married and for those not married, since a young married woman could hardly be counted as a probable first-job seeker, even though she were not attending school. Another significant figure is that representing the number of persons both following a gainful occupation and attending school.

The results of this special tabulation are presented in detail, by age, in Tables 29 to 34.



SCHOOL ATTENDANCE OF THE POPULATION 5 TO 20 YEARS OLD: 1930

SCHOOL ATTENDANCE BY SINGLE YEARS OF AGE: 1930 AND 1920

SCHOOL ATTENDANCE BY SINGLE YEARS OF AGE FROM 5 TO 20, BY COLOR AND NATIVITY: 1930

SCHOOL ATTENDANCE OF THE POPULATION 7 TO 13 YEARS OLD, BY COLOR AND NATIVITY: 1930 AND 1920

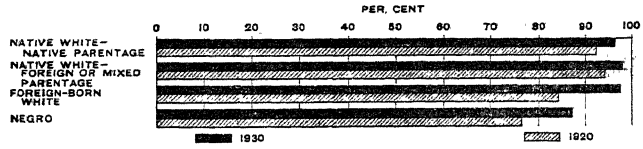


TABLE 4.—SCHOOL ATTENDANCE OF THE POPULATION 5 TO 20 YEARS OLD, BY COLOR, NATIVITY, AND SEX, FOR THE UNITED STATES: 1890 TO 1930

[Per cent not shown where base is less than 100]

[1] Mexicans classified separately for the first time in 1930; included for the most part with whites of foreign birth or parentage in 1920 and 1910.

[2] All figures for 1890 are based upon population and school attendance for the age group 5 to 19 instead of 5 to 20, as the number of persons 20 years old attending school is not available. It is estimated that the percentage attending school for all classes would be reduced from 54.3 to 52.0 if figures for age 20 could be included.

TABLE 7.—SCHOOL ATTENDANCE OF THE POPULATION 7 TO 20 YEARS OLD, BY COLOR, NATIVITY, AGE, AND SEX, FOR THE UNITED STATES: 1930, 1920, AND 1910

[Some part of the increase from 1920 to 1930 in the percentages at school, shown by whites of foreign birth or parentage, is doubtless due to the separate classification in 1930 of Mexicans who were included for the most part with these two white classes in 1920 and 1910]

COLOR, NATIVITY, AND AGE	TOTAL						MALE						FEMALE					
	Number attending school			Per cent			Number attending school			Per cent			Number attending school			Per cent		
	1930	1920	1910	1930	1920	1910	1930	1920	1910	1930	1920	1910	1930	1920	1910	1930	1920	1910

DIAGRAMS

Percentage of illiteracy in the United States: 1880 to 1930 1221
Per cent illiterate in population 10 years old and over: 1930 1221
Per cent illiterate in population 10 years old and over, by color and nativity, by States: 1930 and 1920 1222

TABLES

UNITED STATES

1. Illiteracy in the population 10 years old and over, by color and nativity, for the United States: 1930 and 1920 1219
2. Illiteracy in the population 10 years old and over, by age, for the United States: 1930 and 1920 1220
3. Illiteracy in the urban, rural-farm, and rural-nonfarm population 10 years old and over, by color and nativity, for the United States: 1930 1220
4. Illiteracy in the population 10 years old and over, by color, nativity, and sex, for the United States: 1870 to 1930 1223
5. Illiteracy in the population 21 years old and over, by color, nativity, and sex, for the United States: 1900 to 1930 1224
6. Illiteracy in the population 10 years old and over, by color, nativity, sex, and age, for the United States: 1930 1225
7. Illiteracy in the population 10 years old and over, by color, nativity, sex, and age, for the United States: 1900 to 1930 1226
8. Illiteracy in the urban, rural-farm, and rural-nonfarm population 10 years old and over, by color, nativity, sex, and age, for the United States: 1930 1227
9. Illiteracy in the population of minor races, 10 years old and over and 21 years old and over, for the United States, urban and rural: 1930 1228

DIVISIONS AND STATES

10. Illiteracy in the population 10 years old and over, by color and nativity, by divisions and States: 1930 1229
11. Illiteracy in the population 21 years old and over, by color and nativity, by divisions and States: 1930 1230
12. Per cent illiterate in the population 10 years old and over, by sex, and by color and nativity, by divisions and States: 1900 to 1930 1231
13. Per cent illiterate in the population 21 years old and over, by sex, and by color and nativity, by divisions and States: 1900 to 1930 1232

DIVISIONS AND STATES—Continued

Page

14. Illiteracy in the population 10 to 15 years old, by color and nativity, by divisions and States: 1930 and 1920 1233
15. Illiteracy in the population 16 to 20 years old, by color and nativity, by divisions and States: 1930 and 1920 1234
16. Illiteracy in the population 10 years old and over, by color, nativity, sex, and age, by divisions and States: 1930 and 1920 1235
17. Illiteracy in the population of minor races, 10 years old and over and 21 years old and over, by States: 1930 1255
18. Illiteracy in the urban, rural-farm, and rural-nonfarm population 10 years old and over, by color, nativity, sex, and age, by States: 1930 1256
19. Illiteracy in the urban, rural-farm, and rural-nonfarm population 21 years old and over, by sex, and by color and nativity, by States: 1930 1272

PRINCIPAL CITIES

20. Illiteracy in the population 10 years old and over, by color, nativity, sex, and age, for cities of 500,000 or more: 1930 and 1920 1275
21. Illiteracy in the population 10 years old and over, by color, nativity, sex, and age, for cities of 50,000 to 500,000: 1930 1281
22. Illiteracy in the population 21 years old and over, by sex, and by color and nativity, for cities of 50,000 to 500,000: 1930 1299
23. Illiteracy in the population of minor races, 10 years old and over and 21 years old and over, for cities of 100,000 or more: 1930 1302
24. Illiteracy in the population 10 years old and over, by sex and age, for cities of 25,000 to 50,000: 1930 1303
25. Illiteracy in the population 21 years old and over, by sex, for cities of 25,000 to 50,000: 1930 1313

ILLITERACY BY COUNTRY OF ORIGIN

26. Illiteracy in the foreign-born white population 10 years old and over, by sex, age, and country of birth, for the United States: 1930 1315
27. Illiteracy in the native white population of foreign or mixed parentage, by sex, age, and country of birth of parents, for the United States: 1930 1317
28. Illiteracy in the foreign-born white population 10 years old and over, by age and country of birth, in urban, rural-farm, and rural-nonfarm areas: 1930 1319
29. Illiteracy in the native white population of foreign or mixed parentage, by age and country of birth of parents, in urban, rural-farm, and rural-nonfarm areas: 1930 1320
30. Illiteracy in the white population of foreign birth or parentage, by age and country of origin, by States: 1930 1321
31. Illiteracy in the white population of foreign birth or parentage, by age and country of origin, for cities of 500,000 or more: 1930 1336

CHAPTER 13—ILLITERACY

INTRODUCTION

The Census Bureau defines as illiterate any person 10 years of age or over who is not able to read and write, either in English or in some other language. The classification is based on the answers given to the enumerator in response to the question "Whether able to read and write." No specific test of ability to read and write was prescribed, but the enumerators were instructed *not* to return the answer "Yes" (which would classify the person as literate) simply because the person was able to write his or her name.

Statistics of illiteracy were first obtained for the entire population 10 years old and over in 1870. In the several censuses prior to 1930, two questions have been asked, namely, "Whether able to read" and "Whether able to write," and illiteracy has been defined as inability to write, "regardless of ability to read." As a matter of fact, the figures for illiterates presented in most of the tables in the Reports of the 1920 Census, for example, represent persons who were unable both to read and to write, since every person tabulated as able to write was also counted as able to read. The earlier statistics are therefore strictly comparable with the 1930 figures obtained through the use of the consolidated question.

It should be noted that ability to read and write can not be defined so precisely as to cover all cases with certainty. A person may know the alphabet and a small number of printed words and yet not be able to read in a true sense; or he may be able to write his name or other disconnected words, but wholly unable to express his thoughts in writing in any satisfactory fashion. In general, the illiterate population as shown by the census may be assumed to comprise only those persons who have had no education whatever.

Statistics of illiteracy in connection with ability to speak English are presented in Chapter 14, Inability to Speak English. From these tables may be obtained approximately the numbers of persons who are unable to read and write English, including those who can read their native language.

Statistics of illiteracy for continental United States are presented in this chapter by States and for cities of 25,000 or more. Less detailed statistics are presented for counties and for incorporated places of 2,500 or more in Volume III of the Fifteenth Census Reports on Population; and statistics of illiteracy in the outlying territories and possessions enumerated at the Fifteenth Census are presented in the volume containing the 1930 census reports for those areas.

Color and nativity.—The variations in the proportion of illiterates in the several color and nativity classes reflect the educational opportunities, past and present, which have been open to them in the different sections of the United States, and in the case of the foreign born, in the countries from which they have come.

The decidedly higher percentage of illiteracy for the native whites of native parentage than for the native whites of foreign or mixed parentage results mainly from the fact that a much larger proportion of the former class are found in the rural communities, where school attendance has been less general than in the cities. Further, most of the rural native whites of foreign or mixed parentage live in States where educational facilities, even in the country, are relatively good. In order to make a fair comparison between these two elements of the population, therefore, in regard to illiteracy, the statistics for individual cities and for urban and rural areas in individual States, should be examined. (See Tables 18 to 22.)

The statistics of illiteracy for the United States are presented, by color and nativity, in Table 1.

TABLE 1.—ILLITERACY IN THE POPULATION 10 YEARS OLD AND OVER, BY COLOR AND NATIVITY, FOR THE UNITED STATES: 1930 AND 1920

COLOR AND NATIVITY	1930 [1]			1920 [1]		
	Total number	Illiterate		Total number	Illiterate	
		Number	Per cent		Number	Per cent
All classes	98,723,047	4,283,753	4.3	82,739,315	4,931,905	6.0
White	87,980,667	2,407,218	2.7	74,359,749	3,006,312	4.0
Native	74,763,739	1,103,134	1.5	60,861,863	1,242,572	2.0
Native parentage	53,876,411	986,469	1.8	44,077,564	1,109,875	2.5
For. or mixed par.	20,887,328	116,665	0.6	16,784,299	132,697	0.8
Foreign born	13,216,928	1,304,084	9.9	13,497,886	1,763,740	13.1
Negro	9,292,556	1,513,892	16.3	8,053,225	1,842,161	22.9
Other races	1,449,824	362,643	25.0	326,341	83,432	25.6

[1] Mexicans, with a relatively high percentage of illiteracy (27.5 in 1930), are included with "Other races" in the figures for 1930 and with the white population in 1920.

Illiteracy by age.—The results of the extension of educational opportunities from decade to decade are brought out clearly by the statistics of illiteracy for the various age periods. The illiteracy shown for persons in each age period measures the lack of educational advantages during the childhood and youth of

that age group. If school facilities should make no further growth from now on, there would nevertheless be a gradual reduction in illiteracy for several decades to come, as the older and more illiterate population died out; and the general level of illiteracy would gradually approach that found at present in the younger age groups. The improvement in educational facilities since 1890 can be studied by making a comparison of the percentages of illiteracy for the age groups 10 to 14 and 15 to 19 as shown by the census figures for 1900, 1910, 1920, and 1930. (See Tables 2 and 7.)

The statistics of illiteracy for the several age periods are summarized for the United States in Table 2.

TABLE 2.—ILLITERACY IN THE POPULATION 10 YEARS OLD AND OVER, BY AGE, FOR THE UNITED STATES: 1930 AND 1920

AGE	1930			1920		
	Total number	Illiterate		Total number	Illiterate	
		Number	Per cent		Number	Per cent
10 years and over	98,723,047	4,283,753	4.3	82,739,315	4,931,905	6.0
10 to 14 years	12,004,877	140,440	1.2	10,641,137	246,360	2.3
15 to 19 years	11,552,115	221,942	1.9	9,430,556	283,316	3.0
20 to 24 years	10,870,378	294,360	2.7	9,277,021	392,853	4.2
25 to 34 years	18,954,029	618,266	3.3	17,157,684	961,200	5.6
35 to 44 years	17,198,840	887,955	5.2	14,120,838	988,961	7.0
45 to 54 years	13,018,083	864,433	6.6	10,498,493	857,776	8.2
55 to 64 years	8,396,898	606,811	7.2	6,531,672	594,573	9.1
65 years and over	6,633,805	642,966	9.7	4,933,215	591,385	12.0
Unknown	94,022	6,580	7.0	148,699	15,481	10.4

In many of the tables statistics of illiteracy are presented for the population 10 years old and over, without further age classification. In such cases the group includes persons with age unknown. Age 21 and over likewise includes age unknown.

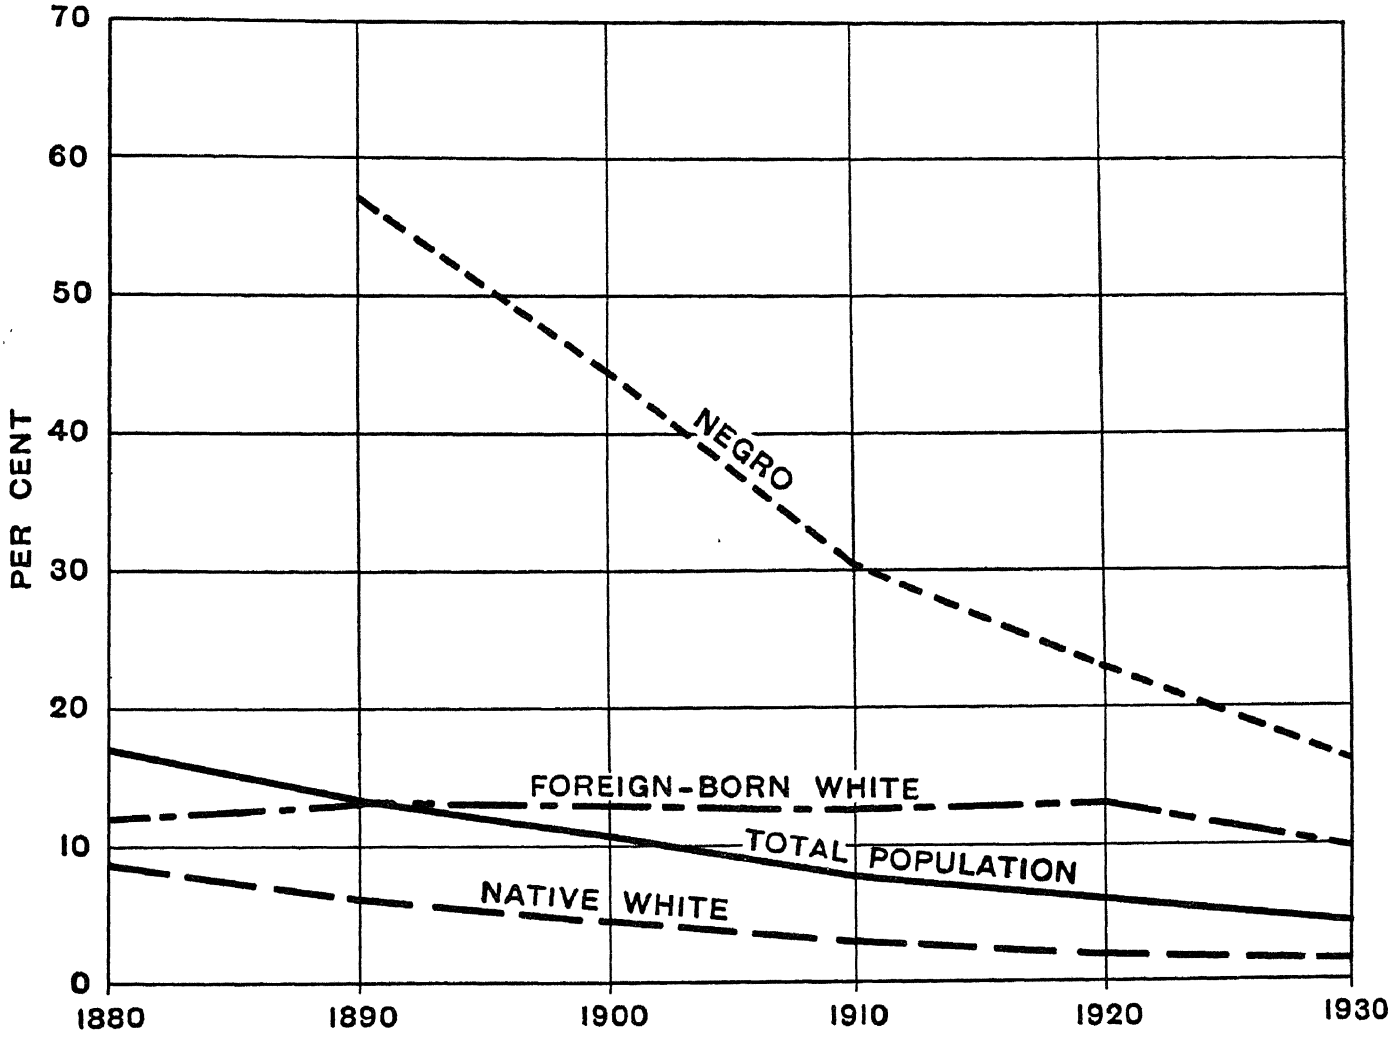
Urban, rural-farm, and rural-nonfarm population.—Because of the marked differences between urban and rural communities in regard to school facilities and also in the composition of their population, statistics for illiteracy are presented for these three population groups in several of the tables.

Urban population, as defined by the Census Bureau, is in general that residing in cities and other incorporated places having 2,500 inhabitants or more, the remainder being classified as rural. In three of the New England States, New Hampshire, Massachusetts, and Rhode Island, towns (townships) are classified as urban if they have a population of 2,500 or more and certain urban characteristics; and a few large and densely populated townships in other States are likewise classified, even though not formally incorporated as municipalities.

In addition to the classification of the population as urban and rural, the rural population is further subdivided into rural-farm and rural-nonfarm, on the basis of the replies to a question reading "Does this family live on a farm?" The rural-farm population includes all persons living on farms in the rural areas. The rural-nonfarm or "village" population is made up largely of persons living in small towns or villages, both incorporated and unincorporated, though in many areas there are considerable numbers of families living in the open country but not on farms.

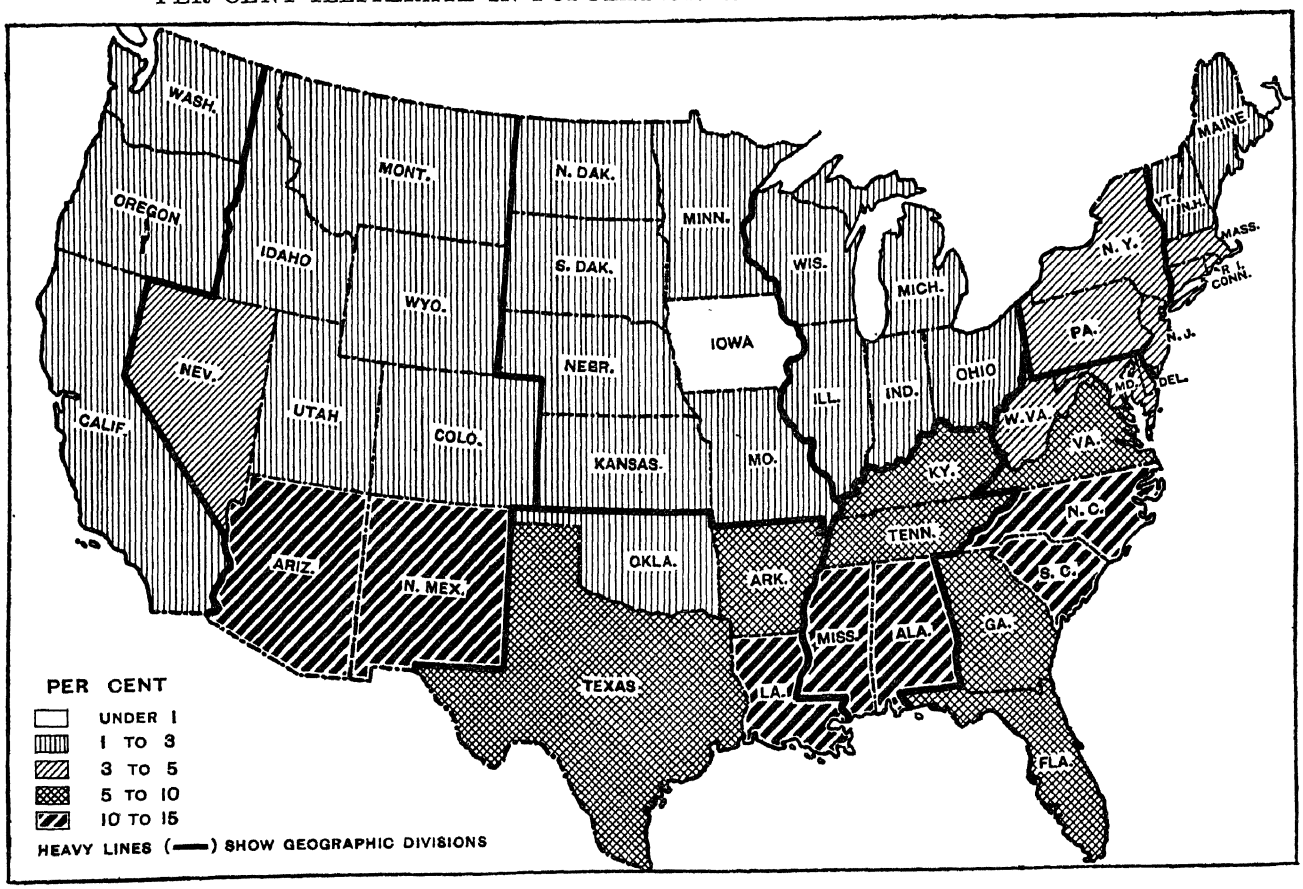
The statistics of illiteracy for these urban and rural areas are summarized in Table 3.

TABLE 3.—ILLITERACY IN THE URBAN, RURAL-FARM, AND RURAL-NONFARM POPULATION 10 YEARS OLD AND OVER, BY COLOR AND NATIVITY, FOR THE UNITED STATES: 1930



[For population on which percentages are based, see Table 8]

COLOR AND NATIVITY	URBAN POPULATION		RURAL-FARM POPULATION		RURAL-NONFARM POPULATION	
	Number illiterate	Per cent	Number illiterate	Per cent	Number illiterate	Per cent
All classes	1,800,604	3.2	1,583,030	6.9	900,119	4.8
White	1,282,441	2.5	644,101	3.4	480,676	2.9
Native	223,596	0.5	559,624	3.1	319,914	2.1
Native parentage	163,227	0.6	533,412	3.5	289,830	2.4
Foreign or mixed par.	60,369	0.4	26,212	0.9	30,084	1.0
Foreign born	1,058,845	10.0	84,477	7.8	160,762	10.4
Negro	395,849	9.2	794,866	23.2	323,177	20.5
Other races	122,314	18.0	144,063	34.8	96,266	26.9



Illiteracy by country of origin.—Illiteracy in the foreign-born white population has been classified for 1930 by age in combination with country of birth; and for the native white of foreign or mixed parentage has been classified by age in combination with country of birth of parents. This is the first attempt to show illiteracy in the population of foreign derivation by nationality or country of origin.

These figures are summarized for the United States, and for urban and rural areas, in Tables 26 to 29, and are presented by States and for the more important cities in Tables 30 and 31.

PERCENTAGE OF ILLITERACY IN THE UNITED STATES: 1880 TO 1930

[1] Includes persons of unknown age.

TABLE 7.—ILLITERACY IN THE POPULATION 10 YEARS OLD AND OVER, BY COLOR, NATIVITY, SEX, AND AGE, FOR THE UNITED STATES: 1900 TO 1930

[Some part of the decrease from 1920 to 1930 in the percentage illiterate, shown by whites of foreign birth or parentage, is doubtless due to the separate classification in 1930 of Mexicans who were included for the most part with these white classes in 1920 and 1910.]

Foreign-born white population 10 years old and over, by sex and ability to speak English, for the United States: 1930 1349
Illiteracy and inability to speak English in the foreign-born white population 10 years old and over, by country of birth: 1930 1350

TABLES

United States

1.—Inability to speak English in the foreign-born population of the United States 10 years old and over, by color or race: 1930 1347
2.—Inability to speak English in the foreign-born white population of the United States 10 years old and over, by country of birth and sex: 1930 1347
3.—Inability to speak English in the foreign-born white population of the United States 10 years old and over, by sex and literacy: 1930 1348
4.—Inability to speak English in the foreign-born white population of the United States 10 years old and over, by age and sex: 1930 1348
5.—Inability to speak English in the foreign-born population 10 years old and over, by color or race and sex for the United States: 1890 to 1930 1349
6.—Inability to speak English in the foreign-born white population 10 years old and over, by sex, literacy, and country of birth, for the United States: 1930 1351
7.—Inability to speak English in the foreign-born white population 10 years old and over, by sex, age, literacy, and country of birth, for the United States: 1930 1353
8.—Inability to speak English in the foreign-born white population 10 years old and over, by age, literacy, and country of birth, for urban, rural-farm, and rural-nonfarm areas: 1930 1356

Divisions and States

Page

9.—Inability to speak English in the foreign-born white population 10 years old and over, by sex and literacy, by divisions and States: 1930 1359
10.—Inability to speak English in the foreign-born white population 10 years old and over, by sex, by divisions and States: 1900 to 1920 1360
11.—Inability to speak English in the foreign-born Negro, Mexican, Indian, Chinese, and Japanese population 10 years old and over, by divisions and States: 1930 1361
12.—Inability to speak English in the foreign-born white population 10 years old and over, by literacy, for urban, rural-farm, and rural-nonfarm areas, by divisions and States: 1930 1362
13.—Inability to speak English in the foreign-born white population 10 years old and over, by age and literacy, for urban, rural-farm, and rural-nonfarm areas, by States: 1930 1363
14.—Inability to speak English in the foreign-born white population 10 years old and over, by sex, age, literacy, and country of birth, for States having 100,000 or more foreign-born white: 1930 1366
15.—Inability to speak English in the foreign-born white population 10 years old and over, by sex, literacy, and country of birth, for States having less than 100,000 foreign-born white: 1930 1373

Principal Cities

16.—Inability to speak English in the foreign-born white population 10 years old and over, by sex, age, literacy, and country of birth, for cities of 500,000 or more: 1930 1375
17.—Inability to speak English in the foreign-born white population 10 years old and over, by sex and literacy, for cities of 100,000 or more having 10,000 or more foreign-born white: 1930 1382
18.—Inability to speak English in the foreign-born white population 10 years old and over, by sex, literacy, and country of birth, for cities of 100,000 to 500,000 having 10,000 or more foreign-born white: 1930 1383
19.—Inability to speak English in the foreign-born white population 10 years old and over, by sex and literacy, 1930, with comparative figures by sex for 1920, for cities of 25,000 or more 1387

CHAPTER 14.—INABILITY TO SPEAK ENGLISH

INTRODUCTION

The inquiry as to ability to speak English has been made at each of the last five censuses, beginning with that of 1890. The determination of this ability has been left to the judgment of the enumerator, and no specific tests of the knowledge of the English language have been prescribed. The standards may therefore be subject to some variation in different parts of the country, but on the whole the replies are believed to indicate the ability or inability to use the English language in ordinary daily activities. The inquiry was made only with respect to persons 10 years old and over. The statistics here presented cover continental United States, the States, and cities having 25,000 or more inhabitants. No tabulation of inability to speak English was made for counties or for the smaller cities. Statistics for Alaska, Hawaii, Puerto Rico, Guam, American Samoa, the Panama Canal Zone, and the Virgin Islands of the United States are presented in the Fifteenth Census Report on Outlying Territories and Possessions.

Color and nativity.—The statistics of inability to speak English were tabulated in 1930 for the foreign-born population only, and except for Tables 1, 5, and 11, the tables shown in this chapter relate to the foreign-born white population alone. The 1930 figures for inability to speak English are summarized for the several color or race groups in Table 1.

TABLE 1.—INABILITY TO SPEAK ENGLISH IN THE FOREIGN-BORN POPULATION OF THE UNITED STATES 10 YEARS OLD AND OVER, BY COLOR OR RACE: 1930

COLOR OR RACE	Total 10 years old and over	UNABLE TO SPEAK ENGLISH		PER CENT UNABLE TO SPEAK ENGLISH, BY SEX	
		Number	Per cent	Male	Female
Total foreign born	14,025,800	1,224,995	8.7	6.1	11.8
Foreign-born white	13,216,928	869,865	6.6	4.1	9.5
Foreign-born Negro	97,792	1,859	1.9	1.6	2.2
Foreign-born Mexican	590,095	324,359	55.0	46.5	66.0
Foreign-born Indian	3,380	1,104	32.7	29.6	36.2
Foreign-born Chinese	43,682	12,144	27.8	25.6	45.1

Other foreign born	4,000	539	13.5	13.0	17.9

The United States totals for the various classes of opulation covered by the inquiry on ability to speak nglish at the several censuses are presented in Table 5, hile Table 11 gives the 1930 statistics by divisions and tates for all of the important nonwhite races. At the census of 1890 statistics were compiled for the native white classes, and at the census of 1900 for the native white of foreign or mixed parentage, as well as for the foreign-born white. In 1910 and 1920 the statistics of inability to speak English were presented for the foreign-born white population, and for Negroes, Indians, Chinese, and Japanese, without regard to nativity.

There are still in parts of the United States some tens of thousands of persons of native birth who are unable to speak English, but their number is rapidly diminishing, and in the total population it is negligible. In the States of New Mexico, Arizona, and Texas, there are considerable numbers of natives of Mexican origin who speak only Spanish; and in Louisiana many parishes contain a relatively large number of native persons, both white and Negro, who speak only French. There are also a few thousand Indians on reservations who still maintain tribal relations and who have never learned English. In the native white population of States other than Louisiana the few persons who do not speak English are mainly persons of advanced age living in isolated communities.

Country of birth.—Inability to speak English has been tabulated in 1930 for the first time by country of birth. The results of this tabulation taken in connection with the data on year of immigration afford material for a study of the rates at which the foreign born from the different European countries are being assimilated into our American population. In the presentation of these statistics by country of birth only the more important non-English-speaking countries are shown. The totals for the United States are summarized in Table 2.

TABLE 2.—INABILITY TO SPEAK ENGLISH IN THE FOREIGN-BORN WHITE POPULATION OF THE UNITED STATES 10 YEARS OLD AND OVER, BY COUNTRY OF BIRTH AND SEX: 1930

COUNTRY OF BIRTH	Foreign-born white, 10 years old and over	UNABLE TO SPEAK ENGLISH		PER CENT UNABLE TO SPEAK ENGLISH, BY SEX

Inability to speak English and literacy.—Another new combination made in the 1930 tabulation involves a cross classification between inability to speak English and literacy. One of the most important of the classes obtained from this combination is that made up of persons able to read and write but not able to speak English. There has been a considerable demand for statistics of literacy in English. The number of persons unable to read and write in English can be approximated by adding to the number of illiterate persons (persons not able to read and write in any language) the number of literate persons who are unable to speak English. Further, the number of persons able to read and write only in some foreign language will doubtless be of significance as indicating the probable number of readers of the foreign language press—or at least of persons whose reading must be limited to publications in foreign languages.

The more important data obtained for the United States through the combination of illiteracy with ability to speak English are presented in Table 3. Similar data, classified also by country of birth, may be found in Tables 6, 7, and 8.

TABLE 3.—INABILITY TO SPEAK ENGLISH IN THE FOREIGN-BORN WHITE POPULATION OF THE UNITED STATES 10 YEARS OLD AND OVER, BY SEX AND LITERACY: 1930

CLASS	Total	Male	Female
Foreign-born white population 10 years old and over	13,216,928	7,078,223	6,138,705
Unable to speak English:

Illiterate—			
Number	826,951	422,247	404,704
Per cent of total	6.3	6.0	6.6
Per cent of those able to speak English	6.7	6.2	7.3
Total literate	11,912,844	6,504,246	5,408,598
Unable to speak English [1]	392,732	135,552	257,180
Per cent of total literate	3.3	2.1	4.8
Total illiterate	1,304,084	573,977	730,107
Unable to speak English	477,133	151,730	325,403
Per cent of total illiterate	36.6	26.4	44.6

[1] Persons able to read and write in their native language but not able even to speak English.

Age.—In order to add still further to the material available for the study of our foreign-born population, the tabulation of inability to speak English in combination with illiteracy and country of birth has been subdivided into broad age groups. In general it would appear that the younger persons in the foreign-born white population were learning to speak English more rapidly than did the older ones, many of whom arrived in periods when immigration was very rapid and the formation of foreign-language settlements more likely to take place. Data on inability to speak English, by age and sex, are presented in Table 4. Similar figures, classified also by country of birth, may be found in Table 7.

TABLE 4.—INABILITY TO SPEAK ENGLISH IN THE FOREIGN-BORN WHITE POPULATION OF THE UNITED STATES 10 YEARS OLD AND OVER, BY AGE AND SEX: 1930

AGE	Total	UNABLE TO SPEAK ENGLISH		PER CENT UNABLE TO SPEAK ENGLISH, BY SEX	
		Number	Per cent	Male	Female

65 years and over	1,657,293	156,351	9.4	5.7	13.4
Unknown	9,824	732	7.5	6.0	9.7

Urban and rural areas.—Urban population, as defined by the Census Bureau, is in general that residing in cities and other incorporated places having 2,500 inhabitants or more, the remainder being classified as rural. In three of the New England States—New Hampshire, Massachusetts, and Rhode Island—towns (townships) are classified as urban if they have a population of 2,500 or more and certain urban characteristics; and a few large and densely populated townships in other States are likewise classified, even though not formally incorporated as municipalities.

In addition to the classification of the population as urban and rural, the rural population is subdivided into rural-farm and rural-nonfarm, on the basis of the replies to a question reading "Does this family live on a farm?" The rural-farm population includes all persons living on farms in the rural areas. The rural-nonfarm or "village" population is made up largely of persons living in small towns or villages, both incorporated and unincorporated, though in many areas there are considerable numbers of families living in the open country but not on farms.

Statistics of inability to speak English for urban, rural-farm, and rural-nonfarm areas are presented in Tables 8, 12, and 13.

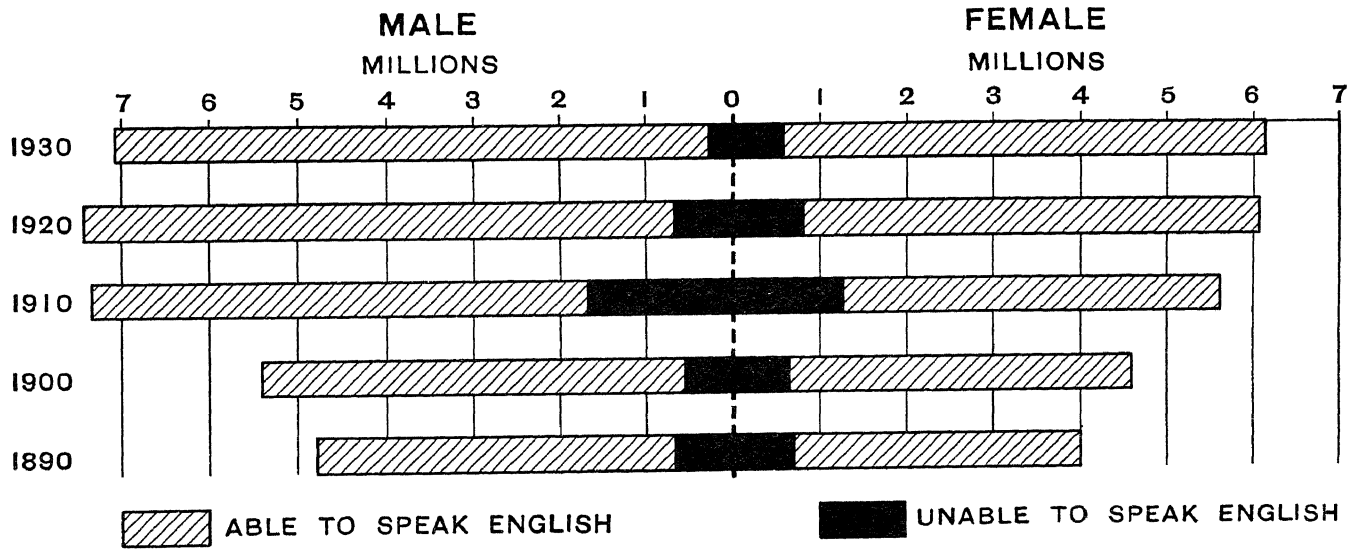

TABLE 5.—INABILITY TO SPEAK ENGLISH IN THE FOREIGN-BORN POPULATION 10 YEARS OLD AND OVER, BY COLOR OR RACE AND SEX, FOR THE UNITED STATES: 1890 TO 1930

ENTRIES ARE REQUIRED IN THE SEVERAL COLUMNS AS FOLLOWS:

Cols. 6, 11, 12, 13, 14, 16, 18, 19, 20, and 25—For all persons.
Cols. 7, 8, 9, and 10—For heads of families only. (Col. 8 requires no entry for farm family.)
Col. 15—For married persons only.
Col. 17—For all persons 10 years of age and over.

Cols. 21, 22, and 23—For all foreign-born persons.
Col. 24—For all persons 10 years of age and over.
Cols. 26, 27, and 28—For all persons for whom an occupation is reported in Col. 25.
Col. 30—For all males 21 years of age and over.

APPENDIX B—INSTRUCTIONS TO ENUMERATORS

POPULATION SCHEDULE

49 Entries on the schedule —The illustrative example (Form 15–3b, printed on pink paper) shows the manner in which the entries upon the schedule should be made These entries should be made at the time of the enumeration, and the recopying of schedules should be avoided so far as possible

50 Definite answers —Try to get a definite answer to each inquiry according to the instructions herein given But, if after every effort has been made, you can not obtain the desired information write "Un" (for unknown) For questions like that on age or year of immigration, however, enter an approximate figure, if one can be obtained, rather than "Un" For example, if your informant says that she does not know how old a person is but that he is about 45, enter "45" rather than "Un"

51 The census day —All returns on the population schedule (except in column 28) should relate to the census day, April 1, 1930 Thus persons dying after April 1 should be enumerated, but persons born after April 1 should not be enumerated

52 Persons who move into your district after April 1, for permanent residence, however, should be enumerated by you, unless you find that they have already been enumerated in the district from which they came

WHO ARE TO BE ENUMERATED IN YOUR DISTRICT

53 This is the most important and difficult matter you will have to determine Therefore study with special care the following rules and instructions

54 Usual place of abode —In general, all persons are to be enumerated at their "*usual place of abode*" on April 1, 1930 This means, usually, the place which they would name in reply to the question "Where do you live?" or the place which they regard as their *home* When a young person has left his parents' home and obtained employment elsewhere, the place where he usually stays while engaged in such employment should be considered his usual place of abode, even though he may still think of his parents' residence as "home"

55 As a rule, the usual place of abode is the place where a person usually sleeps Note, however, that where a man happens to sleep at the time of the enumeration may not be the place where he usually sleeps, as more fully explained below

56 Residents absent on census day —There will be a certain number of persons having their usual place of abode in your district who are absent at the time of the enumeration These you must include and enumerate, obtaining the facts regarding them from their families, relatives, acquaintances, or other persons able to give this information A son or daughter permanently located elsewhere, however, or regularly employed elsewhere and not sleeping at home, should not be included with the family Persons to be counted as members of the family include the following

a Members of the family temporarily absent on the census day, either in foreign countries or elsewhere in the United States on business or visiting.

b Members of the family attending schools or colleges located in other districts, except cadets at Annapolis and West Point (But a student nurse who receives even a nominal salary should be enumerated where she is in training)

c Members of the family who are ill in hospitals or sanitariums

d Servants, laborers, or other employees who live with the family, sleeping on the premises

e Boarders or lodgers who sleep in the house

57 In the great majority of cases it is more than likely that the names of absent members of the family will not be given you by the person furnishing the information, unless particular attention is called to them Before finishing the enumeration of a family you should in all cases, therefore, *specifically ask the question as to whether there are any absent members*, as described above, who should be enumerated with the family

58 Designation for absent persons —After you have entered the name of such absent member of the family, write after the name in column 5, well toward the right-hand side of the column, the designation, "Ab," thus, "Smith, Robert B —Ab"

59 Classes not to be enumerated in your district —There will be, on the other hand, a certain number of persons present and perhaps lodging and sleeping in your district at the time of the enumeration who do not have their usual place of abode there These you should not enumerate unless it is likely that they will not be enumerated anywhere else (See par 61) As a rule, therefore, you should not enumerate, or include with the members of the family you are enumerating, any of the following classes

a Persons visiting with this family,

b Transient boarders or lodgers who have some other usual or permanent place of abode where they are likely to be enumerated,

c Persons from abroad temporarily visiting or traveling in the United States (Persons from abroad who are *employed* here should be enumerated, even though they do not expect to remain here permanently)

d Students or children living or boarding with this family in order to attend some school, college, or other educational institution in the locality, but not regarding the place as their home,

e Persons who take their meals with this family, but lodge or sleep elsewhere,

f Servants, apprentices, or other persons employed by this family and working in the house or on the premises, but *not sleeping* there, or

g Any person who was formerly in this family, but has since become an inmate of an asylum, almshouse, home for the aged, reformatory, prison, or any other institution in which the inmates may remain for long periods of time (See par 71)

60 Such persons will, with occasional exceptions, be enumerated elsewhere, at their homes or usual places of abode, which in some cases may be in your district, but more often will be in other localities

61 When to make exceptions —In deciding whether to make an exception to the rule and enumerate in your district a person who is present there but whose usual place of abode is elsewhere, the question to be considered is whether or not that person is represented at his or her home or usual place of abode by a husband, wife, father, mother, son, daughter, or other relative, or by a housekeeper, servant, or landlady, or by anybody else who will probably give the name to the enumerator of that district when he calls If not so represented, and, therefore, likely to be omitted at his usual place of abode, he should be enumerated by you

62 When you find a whole family temporarily in your district, and the head or other representative states that they are not represented by anyone at their usual place of abode, you should ordinarily enumerate them in the regular way

62a If, however, you find a family that objects to being enumerated in the population of your district, claiming that their usual place of abode is elsewhere, you should report the fact to your supervisor, using the report card for nonresident family (Form 15–233) for that purpose and stating that the family wish to be enumerated as a part of the population of the place there designated as their usual place of abode The supervisor will supply you with a special schedule on which to enumerate such family, in accordance with the instructions given on the report card

63 Servants —Servants, laborers, or other employees who live with the family and sleep in the same house or on the premises should be enumerated with the family

64 Boarders and lodgers —Boarders (that is, persons eating and sleeping at the same place) or lodgers should be enumerated at the place where they are rooming or lodging, if they are there permanently or for reasons of a permanent nature—for instance, if that is their usual place of abode while carrying on their regular occupation or business

65. *Transient boarders or lodgers*, on the other hand, should not be enumerated at their temporary rooming or lodging place unless it is likely that they will not be enumerated elsewhere. This refers to persons rooming or lodging for a short time at a hotel or a boarding or lodging house, or with a private family, while temporarily absent from their usual places of abode.

66. But transient boarders or lodgers *who have no permanent home* or usual place of abode should be enumerated where they happen to be stopping at the time of the census. This applies in particular to the lodgers in cheap one-night lodging houses who, for the most part, represent a floating population, having no permanent homes.

67. **Construction camps.**—Persons in railroad, road, or other construction camps, lumber camps, convict camps, State farms worked by convicts, or other places which have shifting populations composed of persons with no fixed places of abode, should be enumerated where found, except in so far as certain individuals in such camps may have some other usual place of abode where they are likely to be reported.

68. **Students at school or college.**—If there is a school, college, or other educational institution in your district which has students from outside of your district, you should enumerate only those students who have their regular places of abode in your district. This will include students who live with their parents, permanently and regularly, in your district, together with certain others who have no homes elsewhere. Especially in a university or professional school, there will usually be a considerable number of the older students who are not members of any family located elsewhere and who will be omitted from the census unless you enumerate them. You should make every effort to find and enumerate all such persons.

69. **School-teachers.**—Teachers in a school or college should be enumerated at the place where they live while engaged in teaching, even though they may spend the summer vacation at their parents' home or elsewhere.

70. **Inmates of medical or surgical hospitals.**—Most inmates of medical and surgical hospitals are there only for temporary treatment and have other regular places of abode. Therefore, you should not enumerate as a resident of the hospital any patient unless it appears that he has no other usual place of abode from which he is likely to be reported. A list of persons having no permanent homes can usually be obtained from the hospital records.

71. **Inmates of prisons, asylums, and institutions other than hospitals.**—If there is within your district a prison, reformatory, or jail, an almshouse, an asylum or hospital for the insane, a home for orphans, or for the blind, deaf, or incurable, an institution for the feeble-minded, a soldiers' home, a home for the aged, or any similar institution in which inmates usually remain for long periods of time, *all* the inmates of such an institution should be enumerated as of your district. It is to be specially noted that in the case of jails the prisoners should be there enumerated, however short the term of sentence.

72. **Persons engaged in railway services or traveling.**—Railroad men, canal men, expressmen, railway mail clerks, traveling salesmen, and the like, usually have homes to which they return at intervals and which constitute their usual place of abode within the meaning of the census act. Therefore, any such persons who may be in your district temporarily on April 1, 1930, are not to be enumerated by you unless they claim to have no other regular place of abode within the United States. But if any such persons have their homes in your district, they should be enumerated there, even though absent on April 1, 1930. (See par. 56.)

73. **Soldiers, sailors, marines, and civilian employees of the United States.**—Soldiers, sailors, and marines belonging to the Army or Navy of the United States, and civilian employees of the United States, are treated as resident at their posts of duty or places where they are regularly employed. If, therefore, any family in your district reports that one of its members is a soldier, sailor, marine, or civilian employee of the United States with a post of duty or station elsewhere, *you should not report him as a member of that family.* Cadets at Annapolis and West Point are enumerated at those places.

74. If, however, any civilian employee of the United States is regularly employed in your district and has his usual place of abode there, or has his headquarters there, you should report him as a resident of your district and a member of the family with which he has his usual place of abode, even though he may be temporarily absent on an official or other trip.

75. **Sailors on merchant vessels.**—The officers of merchant vessels under the United States flag should be enumerated at their homes on land, where they will be reported by some member of the family.

76. Special provision is made for the enumeration of the crews of vessels in foreign or intercoastal trade and on the Great Lakes and of the crews of sea-going private vessels of all kinds, except yachts, under the American flag, even though these crews have homes on shore. You should omit such men from your enumeration, therefore, when they are returned as "absent members" by their families. You are to include, however, and report in the regular way, men employed on boats running on the *inland waters* (rivers, canals, etc.) of the United States, other than the Great Lakes.

77. You are also to enumerate, where found, all persons usually employed on board ship who are *out of employment* on the census date. Crews of *foreign* vessels are not to be enumerated.

78. **Citizens abroad at time of enumeration.**—Any citizen of the United States who is a member of a family living in your district, but abroad temporarily at the time of the enumeration, should be enumerated as of your district. It does not matter how long the absence abroad is continued, provided the person intends to return to the United States. These instructions apply only to *citizens* of the United States and not to aliens who have left this country.

PLACE OF ABODE

114. **Column 1. Street, avenue, road, etc.**—This column applies to cities and all other localities where the streets or roads are known by names or numbers or letters. Write the name of the street, avenue, court, place, alley, or road lengthwise, as shown in the illustrative example.

115. The places at which you begin and end work on any street are to be marked by heavy lines in ink (———) across the first and second columns. (See illustrative example, line 8.)

116. **Column 2. House number.**—Write the house number, if there is one, opposite the name of the first person enumerated in the house. If a house is in the rear of another one fronting on a street and has no number of its own, give it the same number as the front house and add the word "rear."

117. **Column 3. Number of dwelling house in order of visitation.**—In this column the first dwelling house you visit should be numbered as "1," the second as "2," and so on until the enumeration of your district is completed. The number should always be entered *opposite the name of the first person enumerated in each dwelling house*, and should not be repeated for other persons or other families living in the same house.

118. **Dwelling house defined.**—A dwelling house, for census purposes, is a place in which, at the time of the census, one or more persons regularly sleep. It need not be a house in the usual sense of the word, but may be a room in a factory, store, or office building, a loft over a garage, a boat, a tent, a freight car, or the like. A building like a tenement or apartment house counts as only one dwelling house, no matter how many persons or families live in it. A building with a solid partition wall through it and a front door for each of the two parts, however, counts as two dwelling houses, as does each house in a block or row of "row" houses. But a 2-apartment house with one apartment over the other and a separate front door for each apartment counts as only one dwelling house.

119. **Column 4. Number of family in order of visitation.**—In this column number the families in your district in the order in which they are enumerated, entering the number *opposite the name of the head of each family*, as shown on the illustrative example. Thus, the first family you visit should be numbered as "1," the second as "2," and so on, until the enumeration of your district is completed.

120. **Family defined.**—The word "family," for census purposes, has a somewhat different application from what it has in popular usage. It means a *group of persons living together in the same dwelling place.* The persons constituting this group may or may not be related by ties of kinship, but if they live together forming one household they should be considered as one family. Thus a servant who sleeps in the house or on the premises should be included with the members of the family for which he or she works. Again, a boarder or lodger should be included with the members of the family with which he lodges; but a person who boards in one place and lodges or rooms at another should be returned as a member of the family at the place where he lodges or rooms.

121. It should be noted, however, that two or more families may occupy the same dwelling house without *living together.* If they occupy separate portions of the dwelling house and their housekeeping is entirely separate, they should be returned as separate families.

122. **Families in apartment houses.**—In an apartment or tenement house, there will be as many families as there are

separate occupied apartments or tenements, even though use may be made of a common café or restaurant.

123. Boarding-house families.—All the occupants and employees of a boarding house or lodging house, if that is their usual place of abode, make up, for census purposes, a single family.

124. Families in hotels.—All of the persons returned from a hotel should likewise be counted as a single "family," *except* that where a family of two or more members (as a husband and wife, or a mother and daughter) occupies permanent quarters in a hotel (or an apartment hotel), it should be returned separately, leaving the "hotel family" made up principally of individuals having no other family relations. The distinction between an apartment house and an apartment hotel, and in turn between an apartment hotel and a hotel devoted mainly to transients, will often be difficult to establish.

125. Institutional families.—The officials and inmates of an institution who live in the institution building or buildings form one family. But any officers or employees who sleep in detached houses or separate dwellings containing no inmates should be returned as separate families.

126. Persons living alone.—The census family may likewise consist of a single person. Thus, an employee in a store who regularly sleeps there is to be returned as a family and the store as his dwelling place. (See par. 82.)

NAME AND RELATION

127. Column 5. Name of each person enumerated.—Enter the name of every person whose usual place of abode on April 1, 1930, was with the family or in the dwelling place for which the enumeration is being made.

128. Order of entering names.—Enter the members of each family in the following order: (1) The head of the family; (2) his wife; (3) the children (whether sons or daughters) in the order of their ages, beginning with oldest; and (4) all other persons living with the family, whether relatives, boarders, lodgers, or servants.

129. How names are to be written.—Enter first the last name or surname, then the given name in full, and the initial of the middle name, if any, except that where a person usually writes his first initial and his middle name, as "J. Henry Brown," you should write "Brown, J. Henry," rather than "Brown, John H."

130. Where the surname is the same as that of the person on the preceding line do not repeat the name, but draw a horizontal line (————) under the name above.

131. Column 6. Relationship to head of family.—Designate the head of the family, whether husband or father, widow, or unmarried person of either sex, by the word "*head*"; for other members of a family write *wife, father, mother, son, daughter, grandson, daughter-in-law, uncle, aunt, nephew, niece, boarder, lodger, servant,* etc., according to the particular relationship which the person bears to the head of the family.

132. Home-maker.—Column 6 is to be used also to indicate which member of the family is the "home-maker," that is, which one is responsible for the care of the home and family. After the word "wife," "mother," or other term showing the relationship of such person to the head of the family, add the letter "H," thus: "Wife—H." Only one person in each family should receive this designation.

133. Occupants of an institution or school, living under a common roof, should be designated as *officer, inmate, pupil, patient, prisoner,* etc.; and in the case of the *chief* officer his title should be used, as *warden, principal, superintendent,* etc., instead of the word "head." Pupils who live at the school only during the school term are not usually to be enumerated at the school. (See par. 68.)

134. If two or more persons share a common abode as partners, write *head* for one and *partner* for the other or others.

135. In the case of a hotel or boarding or lodging house family (see pars. 123 and 124), the *head* of the family is usually the manager or the person who keeps the hotel or boarding or lodging house.

HOME DATA

136. Column 7. Home owned or rented.—This question is to be answered only opposite the name of the *head* of each family, and relates to the home or dwelling in which they are living on the date of the enumeration. If the home is *owned,* write "O"; if the home is *rented,* write "R." Make no entries in this column for the other members of the family.

137. If a dwelling is occupied by more than one family it is the home of each of them, and the question should be answered with reference to each family in the dwelling. The whole dwelling may be owned by one family and a part rented by the other family, or both may rent.

138. Owned homes.—A home is to be classed as owned if it is owned wholly or in part by the head of the family living in the home or by the wife of the head, or by a son, or a daughter, or other *relative* living in the same house with the head of the family. It is not necessary that full payment for the property should have been made or that the family should be the sole owner.

139. Rented homes.—Every home not owned, either wholly or in part, by the family living in it should be returned as *rented,* whether rent is actually paid or not.

140. Where the owner of a house occupies a room or floor, but rents out the major portion of the house, including the first floor, the person hiring the house is to be entered as "*head,*" the home as "*rented,*" and the owner as a "*lodger*"; or if the owner's living arrangements are entirely separate, he (or she) should be reported as a separate family with "*owned*" home.

141. Column 8. Value of home, if owned, or monthly rental, if rented.—If the house or apartment is owned, as indicated by the entry "O" in column 7, give in column 8, on the line for the head of the family, the current market value of the home as nearly as it can be ascertained. Unless the house has been recently purchased it will be necessary to estimate its value. The estimate should represent the amount for which the home, including such land as belongs to it, would sell under normal conditions—not at forced sale. The assessor's value, on which taxation is based, is not generally a safe guide, being usually below the market value. Make it clear to your informant that the values returned on the census schedule are not to be used in any way in connection with taxation and are not open to public inspection.

142. If the home is rented, as indicated by the entry "R" in column 7, give in column 8 the amount paid *each month* as rent, or one-twelfth of the annual rental, in case payment is not made monthly.

143. If no actual rental is paid, as where a workman receives the use of a house as a part of his wages, give in column 8 the estimated nonthly rental value of the house. This estimate may be based on the amount of rent paid for similar houses in the neighborhood.

144. For a farm family (indicated by the entry "Yes" in column 10) make no entry in column 8. The value of the farm home is given on the farm schedule.

145. Column 9. Radio set.—If the family, or any member of the family, has a radio set, write "R" opposite the name of the head of the family. If the family has no radio set, leave this column blank.

146. Column 10. Does this family live on a farm?—This question is to be answered, "Yes" or "No," for every family, except that in a thickly settled city district a statement may be made on the first schedule to the effect that there are no farms in the district, and the column may then be left blank.

147. If the family lives on a farm, that is, a place for which a farm schedule is made out *and which is also locally regarded as a farm,* the answer should be "Yes," even though no member of the family works on the farm. It is a question here of residence, not of occupation.

148. Occasionally there will be a place for which a farm schedule is required, but which is not commonly regarded as a farm. A greenhouse establishment located in a city or village and having little land attached would be an example. For such a place the entry in column 10 should be "No." Likewise for a one-time farm on which no farming is now being done, the place being occupied as a residence only, the entry in column 10 should be "No," even though the place is still called a farm. Where the farmer and his family do not live on the farm, the entry should, of course, be "No."

PERSONAL DESCRIPTION

149. Column 11. Sex.—Write "M" for male and "F" for female, as indicated in the notes at the bottom of the schedule.

150. Column 12. Color or race.—Write "W" for white; "Neg" for Negro; "Mex" for Mexican; "In" for Indian; "Ch" for Chinese; "Jp" for Japanese; "Fil" for Filipino; "Hin" for Hindu; and "Kor" for Korean. For a person of any other race, write the race in full.

151. Negroes.—A person of mixed white and Negro blood should be returned as a Negro, no matter how small the percentage of Negro blood. Both black and mulatto persons are to be returned as Negroes, without distinction. A person of mixed Indian and Negro blood should be returned a Negro, unless the Indian blood predominates and the status as an Indian is generally accepted in the community.

152. Indians.—A person of mixed white and Indian blood should be returned as Indian, except where the percentage of Indian blood is very small, or where he is regarded as a white

person by those in the community where he lives. (See par. 151 for mixed Indian and Negro.)

153. For a person reported as Indian in column 12, report is to be made in column 19 as to whether "full blood" or "mixed blood," and in column 20 the name of the tribe is to be reported. For Indians, columns 19 and 20 are thus to be used to indicate the degree of Indian blood and the tribe, instead of the birthplace of father and mother.

154. Mexicans.—Practically all Mexican laborers are of a racial mixture difficult to classify, though usually well recognized in the localities where they are found. In order to obtain separate figures for this racial group, it has been decided that all persons born in Mexico, or having parents born in Mexico, who are not definitely white, Negro, Indian, Chinese, or Japanese, should be returned as Mexican ("Mex").

155. Other mixed races.—Any mixture of white and nonwhite should be reported according to the nonwhite parent. Mixtures of colored races should be reported according to the race of the father, except Negro-Indian (see par. 151).

156. Column 13. Age at last birthday.—This question calls for the age in completed years at last birthday. Remember, however, that the age question, like all other questions on the schedule, relates to April 1, 1930. Thus a person whose exact age on April 1, the census day, is 17 years, 11 months, and 25 days should be returned simply as 17, because that is his age at his last birthday prior to April 1, even though at the time of your visit he may have completed 18 years.

157. Age in round numbers.—In many cases persons will report the age in round numbers, like 30 or 45, or "about 30" or "about 45," when that is not the exact age. Therefore, when an age ending in "0" or "5" is reported, you should inquire whether it is the exact age. If, however, it is impossible to get the exact age, enter the approximate age rather than return the age as unknown.

158. Ages of children.—Take particular pains to get the exact ages of children. In the case of a child less than 5 years old, the age should be given in completed months, expressed as twelfths of a year. Thus the age of a child 3 months old should be entered as 3/12, a child 7 months old as 7/12, a child 1 year and 3 months old as 1 3/12, a child exactly 3 years old as 3/12, a child 3 years and 1 month old as 3 1/12, etc. If a child is not yet a month old, enter the age as 0/12. But note again that this question should be answered with reference to April 1. For instance, a child who is just a year old on the 5th of April, 1930, should nevertheless be returned as 1 1/12, because that is its age in completed months on April 1.

159. Enumerators must make a special effort to obtain returns for all infants and young children. Children under 1 year of age, in particular, have frequently been omitted from the enumeration in past censuses.

160. Column 14. Marital condition.—Write "S" for a single or unmarried person of whatever age, "M" for a married person, "Wd" for widowed (man or woman), and "D" for divorced.

161. Column 15. Age at first marriage.—This question applies only to married persons; that is, those for whom the entry in column 14 is "M." Where the marriage is evidently a first marriage, it may be good policy to ask for "age at marriage," rather than "age at first marriage," or to ask the question in this form and then make certain that the parties have not been married before.

EDUCATION

162. Column 16. Attended school or college any time since September 1, 1929.—Write "Yes" for a person who attended school, college, or any educational institution at any time since September 1, 1929, and "No" for any person who has not attended school since that date. Include attendance at night school.

163. Column 17. Whether able to read and write.—Write "Yes" for a person 10 years of age or over who can read and write in any language, whether English or some other, and "No" for such person who can not both read and write in some language. Do not return any person as able to read and write simply because he can write his own name. For persons under 10 years of age, leave the column blank.

164. For a blind person, write "Yes" if he could read and write in any language before becoming blind or, if, being born blind, he has been taught to read and write in any language.

PLACE OF BIRTH

165. Column 18. Place of birth of person.—If the person was born in the United States, give the State or Territory in which born. The words "United States" are not sufficiently definite. A person born in what is now North Dakota, South Dakota, or Oklahoma should be so reported, although at the time of his birth the particular region may have had a different name. For a person born in Washington, D. C., write District of Columbia. Do not abbreviate the names of States or Territories.

166. If the person was born in a foreign country, enter the name of the country only, as *Belgium, Czechoslovakia, France, Italy, Yugoslavia, Norway, Poland, China,* etc., as the case may be, *except as noted in the following paragraphs.*

167. Since it is essential that each foreign-born person be credited to the country in which his birthplace is *now* located, special attention must be given to the six countries which lost a part of their territory in the readjustments following the World War. These six countries are as follows:

Austria, which lost territory to Czechoslovakia, Italy, Yugoslavia, Poland, and Rumania.

Hungary, which lost territory to Austria, Czechoslovakia, Italy, Poland, Rumania, and Yugoslavia.

Bulgaria, which lost territory to Greece and Yugoslavia.

Germany, which lost territory to Belgium, Czechoslovakia, Danzig, Denmark, France, Lithuania, and Poland.

Russia, which lost territory to Estonia, Finland, Latvia, Lithuania, Poland, and Turkey.

Turkey, which lost territory to Greece and Italy and from which the following areas became independent: Iraq (Mesopotamia); Palestine (including Transjordan); Syria (including the Lebanon); and various States and Kingdoms in Arabia (Asir, Hejaz, and Yemen).

168. If the person reports one of these six countries as his place of birth or that of his parents, ask specifically whether the birthplace is located within the present area of the country; and if not, find out to what country it has been transferred. If a person was born in the Province of Bohemia, for example, which was formerly in Austria but is now a part of Czechoslovakia, the proper return for country of birth is *Czechoslovakia.* If you can not ascertain with certainty the present location of the birthplace, where this group of countries is involved, enter *in addition to the name of the country,* the name of the Province or State in which the person was born, as *Alsace-Lorraine, Bohemia, Croatia, Galicia, Moravia, Slovakia,* etc., or the city, as *Warsaw, Prague, Strasbourg,* etc.

169. Do not return a person as born in Great Britain but indicate the particular country, as *England, Scotland, Wales,* etc. Distinction must be made between *Northern Ireland* and *Irish Free State.* It is not sufficient to report that a person was born in Ireland.

170. French Canadians should be distinguished from other Canadians. For a French-speaking person born in Canada, enter "*Canada—French*"; for all other persons born in Canada, enter "*Canada—English*" (even though they may not actually speak English).

171. If a person was born in Cuba or Puerto Rico, so state, and do *not* write West Indies.

172. If a person was born abroad, but of American parents, write in column 18 both the birthplace and "*Am. cit.*"—that is, American citizen. For a person born at sea, write "*At sea.*"

173. Spell out the names of countries, provinces, etc., and *do not abbreviate* in any case.

174. Columns 19 and 20. Place of birth of parents.—Enter in columns 19 and 20, respectively, the State or country in which were born the father and the mother of the person whose own birthplace was entered in column 18. In designating the birthplace of the parents, follow the same instructions as for the person himself. (See pars. 165–173.) In case, however, a person does not know the State or Territory of birth of his father (or mother), but knows that he (or she) was born in the United States, write "*United States*" rather than "*unknown.*"

174a. For the Indian population, which is practically all of native parentage, these columns are to be used for a different purpose. In column 19 is to be entered, in place of the country of birth of the father, the degree of Indian blood, as, "full blood" or "mixed blood." In column 20 is to be entered, in place of the country of birth of the mother, the tribe to which the Indian belongs.

MOTHER TONGUE

175. Column 21. Mother tongue of foreign born.—The question, "What is (his or her) mother tongue or native language" is to be asked with regard to every person who was born in any foreign country. By mother tongue is meant the language usually spoken in the home before the person came to the United States. Where persons have come to the United States by way of some other country, what is wanted is the native language of the person, or the language which he spoke in his native country. Do not abbreviate the language, and do not ask for the mother tongue of persons born in the United States.

176. Do not neglect to report the mother tongue simply because it is the same as the language of the country in which the person was born. Thus if a person reports that he was born in France and that his mother tongue is French, it is quite essential to enter the mother tongue as well as the country of birth. On the other hand, do not assume that the mother tongue is the same as the country of birth. For instance, do not report persons born in Austria as of Austrian mother tongue, or persons born in Hungary as of Hungarian mother tongue, especially since "Austrian" and "Hungarian" are not languages. The principal language of present-day Austria is German, and of Hungary, Magyar. Therefore make specific inquiry as to the language spoken. Do not accept "Scandinavian" as a mother tongue but specify whether *Danish, Norwegian,* or *Swedish;* similarly, do not report "Slavic" but specify whether *Croatian, Serbian, Slovak, Slovenian,* etc.

177. **Principal foreign languages.**—Following is a list of the principal languages which are likely to be reported as the mother tongue or native language of foreign-born persons:

Albanian.	Flemish.	Korean.	Ruthenian.
Arabic.	French.	Kurdish.	Scotch.
Armenian.	Frisian.	Lappish.	Serbian.
Basque.	Friulian.	Lettish.	Slovak.
Breton.	Gaelic.	Lithuanian.	Slovenian.
Bulgarian.	Georgian.	Little Russian.	Spanish.
Czech.	German.	Macedonian.	Swedish.
Chinese.	Great Russian.	Magyar.	Syrian.
Croatian.	Greek.	Montenegrin.	Turkish.
Dalmatian.	Gypsy.	Norwegian.	Ukrainian.
Danish.	Hebrew.	Persian.	Walloon.
Dutch.	Hindu.	Polish.	Welsh.
Egyptian.	Icelandic.	Portuguese.	Wendish.
English.	Irish.	Romanish.	White Russian.
Estonian.	Italian.	Rumanian.	Yiddish.
Finnish.	Japanese.	Russian.	

CITIZENSHIP, ETC.

178. **Column 22. Year of immigration to the United States.**—This question applies to all foreign-born[1] persons, male and female, of whatever age. It should be answered, therefore, for every person whose birthplace was in a foreign country. Enter the year in which the person came to the United States. If he has come into the United States more than once, give the year of his first arrival.

179. **Column 23. Naturalization.**—This question applies to all foreign-born persons, male and female, of whatever age. Prior to September 22, 1922, a foreign-born woman became a citizen when her husband was naturalized. Since that date, she must take out papers in her own name, and if she does not do this she remains an alien even though her husband becomes naturalized. The question should be answered, therefore, for every person whose birthplace was in a foreign country, as follows:

180. For a foreign-born male 21 years of age and over write "Na" (for "naturalized") if he has either (1) taken out second or final naturalization papers, or (2) become naturalized while under the age of 21 by the naturalization of either parent.

181. For a foreign-born female 21 years of age and over write "Na" if she has either (1) taken out final papers, or (2) become naturalized through the naturalization of either parent while she was under the age of 21, or (3) if she became naturalized prior to 1922 by the naturalization of her husband. (See par. 179.)

182. For a foreign-born person under 21 years of age write "Na" if either parent has been naturalized. This applies to infants and young children as well as to older persons under 21.

183. For all foreign-born persons who have not been naturalized but have taken out first papers write "Pa" (for "papers"). Note that a person must be at least 18 years of age in order to take out first papers. Minor children should not be returned "Pa" merely because their parents have taken out first papers.

184. For all foreign-born persons neither naturalized nor having first papers, write "Al" (for "alien").

185. **Column 24. Whether able to speak English.**—Write "Yes" for a person 10 years of age and over who can speak English, and "No" for such a person who can not speak English. For persons under 10 years of age leave the column blank.

OCCUPATION AND INDUSTRY

186. **Column 25. Occupation.**—An entry should be made in this column for every person enumerated. The entry should be either (1) the gainful occupation pursued—that is, the word or words which most accurately indicate the particular kind of gainful work done, as *physician, carpenter, dressmaker, salesman, newsboy;* or (2) *none* (that is, no gainful occupation). The entry *none* should be made in the case of persons who follow no gainful occupation. A "gainful occupation" in census usage is an occupation by which the person who pursues it earns money or a money equivalent, or in which he assists in the production of marketable goods. The term "gainful worker," as interpreted for census purposes, does not include women doing housework in their own homes, without wages, and having no other employment (see par. 194), nor children working at home, merely on general household work, on chores, or at odd times on other work.

187. Occasionally there will be doubt as to whether an occupation should be returned for a person who works only a small part of the time at the occupation. In such cases the rule may generally be followed that, unless the person spends at least the equivalent of one day per week at the occupation, he or she should not be returned as a gainful worker—that is, the entry in column 25 should be *none.*

188. **Persons retired or incapacitated.**—Care should be taken in making the return for persons who on account of old age, permanent invalidism, or other reasons are no longer following any occupation. Such persons may desire to return the occupations formerly followed, which would be incorrect. If living on their own income, or if they are supported by other persons or institutions, or if they work only occasionally or only a short time each day, the return should be *none.*

189. **Occupation of persons unemployed.**—On the other hand, persons out of employment when visited by the enumerator may state that they have no occupation, when the fact is that they usually have an occupation but happen to be idle or unemployed at the time of the visit. In such cases the return should be the occupation followed when the person is employed or the occupation in which last regularly employed, and the fact that the person was not at work should be recorded in column 28. (See par. 225).

190. **Persons having two occupations.**—If a person has two occupations, return only the more important one; that is, the one from which he gets the more money. If you can not learn that, return the one at which he spends the more time. For example: Return a man as a *farmer* if he gets more of his income from farming, although he may also follow the occupation of a clergyman or preacher; but return him as a *clergyman* if he gets more of his income from that occupation.

191. **Column 26. Industry.**—Make an entry in this column in all cases where an occupation is reported in column 25. But when the entry in column 25 is "none," leave column 26 blank. The entry in column 26, when made, should be the name of the industry, or the business, or the place in which this person works, as *cotton mill, coal mine, dry-goods store, insurance office, bank,* etc.

192. Never use the word "Company" in column 26. An "oil company," for example, may operate oil wells, or a pipe line, or an oil refinery, or a cottonseed oil mill, or it may be engaged in selling oil. Never enter in column 26 such indefinite terms as "factory," "mill," "shop," or "store," without stating the kind of factory, etc., as *soap factory, cotton mill, blacksmith shop, grocery store.* Likewise, *never enter a firm name in column 26,* as "Jones & Co.," but state the industry or business in which the person works, as *coal mine, real estate,* etc. Avoid entering the word "Contractor" in column 26. Enter, instead, the name of the industry in which the person works, as *building construction, street construction,* etc.

193. The purpose of columns 25 and 26 is to bring out the specific occupation or work performed and the industry, business, or place in which such work is performed. In rare cases, especially with professions, you may use in column 26 the expression *general practice* or *independent,* or, for some laborers, *odd jobs.* The supervisor has been instructed *not to certify your vouchers for payment* if he does not find an entry in *both* of these columns for every person gainfully employed.

194. **Women doing housework.**—In the case of a woman doing housework in her own home and having no other employment, the entry in column 25 should be *none.* But a woman doing housework for *wages* should be returned in column 25 as *housekeeper, servant, cook,* or *chambermaid,* as the case may be; and the entry in column 26 should state the kind of place where she works, as *private family, hotel,* or *boarding house.*

195. Where a woman not only looks after her own home but also has employment outside or does work at home for which she receives payment, the outside work or gainful employment should ordinarily be reported as her occupation, unless this takes only a very small fraction of the woman's time. For instance, a woman who regularly takes in washing should be reported as *laundress* or *washerwoman,* followed in column 26 by *at home.*

[1] Foreign-born persons include all those born outside of the United States and its outlying territories; namely, Alaska, Hawaii, Puerto Rico, Philippine Islands, Guam, American Samoa, Panama Canal Zone, and Virgin Islands of the United States.

196. Farm workers.—Return a person in charge of a farm as a *farmer*, whether he owns it or operates it as a tenant, renter, or cropper; but a person who manages a farm for some one else for wages or a salary should be reported as a *farm manager*. A man who directs farm labor under the supervision of the owner or of a manager should be reported as a *farm foreman* or a *farm overseer;* and a person who works on a farm for some one else, but not as a manager or foreman should be reported as a *farm laborer*.

197. Women doing farm work.—A woman who works only occasionally, or only a short time each day at outdoor farm or garden work, or in the dairy, or in caring for livestock or poultry should not be returned as a farm laborer; but for a woman who works regularly and most of the time at such work, the return in column 25 should be *farm laborer*. Of course, a woman who herself operates or runs a farm or plantation should be reported as a *farmer* and not as a *farm laborer*.

198. Unusual occupations for women.—There are many occupations, such as carpenter and blacksmith, which women usually do not follow. Therefore, if you are told that a woman follows an occupation which is very peculiar or unusual for a woman, verify the statement.

199. Children on farms.—In the case of children who work *regularly* for their own parents on a farm, in an orchard, on a truck farm, etc., the entry in column 25 should be *farm laborer, orchard laborer,* or *garden laborer*, as the case may be.

200. Children working for parents.—Children who work for their parents at home merely on general household work, at chores, or at odd times on other work, should be reported as having no occupation. Those, however, who somewhat regularly assist their parents in the performance of work other than household work or chores should be reported as having the occupation represented by this work.

201. Unusual occupations for children.—It is very unusual for a child to be a farmer or other proprietor of any kind; to be an official, a manager, or a foreman; to follow a professional pursuit; or to pursue any of the skilled trades, such as blacksmith, carpenter, machinist, etc. Therefore, whenever you are told that a child is following an occupation usually followed only by adults, ask whether the child is not merely a *helper* or an *apprentice* in the occupation, and make the entry accordingly.

202. Keeping boarders.—Keeping boarders or lodgers should be returned as an occupation if the person engaged in it relies upon it as his (or her) principal means of support or principal source of income. In that case the return should be *boarding-house keeper* or *lodging-house keeper*. If, however, a family keeps a few boarders or roomers merely as a means of supplementing the earnings or income obtained from other occupations or from other sources, no one in the family should be returned as a boarding or lodging house keeper.

203. Officers, employees, and inmates of institutions or homes.—For an *officer* or *regular employee* of an institution or home, such as an asylum, penitentiary, jail, reform school, or convict camp, return the occupation followed in the institution. For an *inmate* of such institution, if regularly employed, return the occupation pursued in the institution, whether the employment be at productive labor or at other duties, such as cooking, scrubbing, laundry work, etc.; but *if an inmate* is not regularly employed—that is, has no specific duties or work to perform—write *"none"* in column 25. *Do not* return the occupation pursued prior to commitment to the institution.

204. Do not report any inmates of institutions on the Unemployment Schedule. Where the entry "No" has been made in column 28 for such an inmate, write in column 29 "Inst." to indicate the reason for not making the usual entries on the Unemployment Schedule.

205. Builders and contractors.—Only persons engaged principally in securing and supervising the carrying out of building or other construction contracts should be returned as *builders* or *contractors*. Craftsmen who usually work with their tools should be returned as *carpenters, plasterers*, etc., and not as contractors.

206. Doctors or physicians.—In the case of a doctor or physician, enter in column 26 the class to which he belongs, as *medical, osteopathic, chiropractic*, etc.

207. Engineers.—Distinguish carefully the different kinds of engineers by stating the full descriptive titles, as *civil engineer, electrical engineer, locomotive engineer, mechanical engineer, mining engineer, stationary engineer*, etc.

208. Nurses.—In the case of a nurse, always specify whether she is a *trained nurse*, a *practical nurse*, or a *child's nurse*.

209. Cooks and general houseworkers.—Distinguish carefully between cooks and general houseworkers. Return a person who does general housework as a *servant* and not as a *cook*.

210. Workers attending school.—In the case of a person who is at work and also attends a school or college, enter the occupation followed in columns 25 and 26, and indicate the fact of schools or college attendance in column 16.

211. Avoid general or indefinite terms.—Give the occupation and industry precisely. For example, return a worker in a coal mine as a *foreman—coal mine; laborer—coal mine; driller—coal mine*, etc., as the case may be.

212. The term "laborer" should be avoided if any more precise statement of the occupation can be secured. Employees in factories and mills, for example, usually have some definite designation, as *weaver, roller, puddler*, etc. Where the term "laborer" is used, be careful to state accurately the industry or business in column 26.

213. Avoid the use of the word "mechanic" whenever a more specific occupation can be given, such as *carpenter, painter, electrician*, etc.

214. Distinguish carefully the different kinds of "agents" by stating in column 26 the line of business followed, as *real estate, insurance*, etc.

215. Distinguish carefully between retail and wholesale merchants, as *retail merchants—dry-goods; wholesale merchant—dry-goods*.

216. Avoid the use of the word "clerk" wherever a more definite occupation can be named. Thus, an employee in a store who is wholly or principally engaged in selling goods should be called a *salesman* and not a clerk. A *typist, accountant, bookkeeper*, or *cashier*, etc., should be reported as such, and not as a clerk. Do not return a stenographer as a "secretary."

217. Distinguish a traveling salesman from a salesman in a store; the former should be reported as a *commercial traveler*.

218. You need not give a person's occupation just as he expresses it. Always find out exactly the *kind of work* he does and the *industry, business*, or *place* in which he works, and so state it. For instance, if a person says that he is "in business," find out what branch of business, and what kind of work he does or what position he holds.

219. Illustrations of occupation returns.—The following illustrations, in addition to those given in the illustrative example, will indicate the method of returning some of the common occupations and industries. They will also suggest to you distinctions which you should make in other cases:

Column 25	Column 26	Column 25	Column 26
Farm laborer	Farm.	Commercial traveler.	Dry goods.
Clergyman	Baptist church.	Salesman	Department store.
Laborer	Shipyard.	Bookkeeper	Department store.
Laborer	Street construction.	Assembler	Automobile factory.
Laborer	Garden.	Cashier	Department store.
Laborer	Odd jobs.	Cashier	Bank.
Laborer	Steam railroad.	Conductor	Steam railroad.
Brakeman	Steam railroad.	Conductor	Street car.
Weaver	Cotton mill.	Farmer	General farm.
Laborer	Cotton mill.	Author	Independent.
Doffer	Cotton mill.	Gardener	Private estate.
Locomotive engineer.	Steam railroad.	Lawyer	General practice.
Stationary engineer	Lumber mill.	Manager	General farm.
Fireman	Lumber mill.	Overseer	Truck farm.
Fireman	Fire department.	President	Life-insurance co.
Civil engineer	General practice.	President	Bank.
Electrical engineer	Street railway.	Superintendent	Steel works.
Carpenter	Car factory.	Florist	Flower shop.
Carpenter	Shipyard.	Florist	Flower garden.
Carpenter	House.	Foreman	Cotton mill.
Teacher	Public school.	Newsboy	Street.
Machinist	Steel mill.	Newsdealer	News stand.
Agent	Real estate.	Deliveryman	Grocery store.
Agent	Insurance.	Teamster	Express co.
Cook	Hotel.	Chauffeur	Taxicab co.
Servant	Private family.	Chauffeur	Private family.
Retail merchant	Groceries.	Miner	Coal mine.
Wholesale merchant.	Leather.	Laborer	Coal mine.
		Quarryman	Marble.
Janitor	Apartment house.	Trained nurse	Hospital.

220. Column 27. Class of worker.—For an employer—that is, one who employs helpers other than domestic servants in transacting his *own* business—write in column 27 "E"; for a wage or salary worker write "W"; for a person working on his own account write "O"; for an unpaid family worker—that is, a member of the family employed without pay on work which contributes to the family income—write "NP". For all persons returned as having no gainful occupation, leave column 27 blank.

221. Employer ("E").—An employer is one who employs helpers, other than domestic servants, in transacting his *own* business. The term *"employer"* does not include the superintendent, agent, manager, or other person *employed* to manage an establishment or business; and it does not include the foreman of a room, the boss of a gang, or the coal miner who hires his helper. All such should be returned as wage or salary workers,

for, while any one of these may employ persons, none of them does so in transacting his *own* business. In short, no person who himself works for wages or a salary is to be returned as an employer.

222. Wage or salary worker ("W").—Any person who works for wages or salary, at piece rates, or on commission, and is subject to the control and direction of an employer, is to be considered a wage or salary worker. This classification will include the president of the bank or the manager of the factory as well as the clerks and the laborers who may be also employed by the bank or the factory.

223. Working on own account ("O").—A person who has a gainful occupation and is neither an employer, nor a wage or salary worker, nor an unpaid family worker, is considered to be working on his own account; such persons are the independent workers. They neither pay nor receive salaries or regular wages. Examples of this class are: Farmers and the owners of small establishments who do not employ helpers; professional men who work for *fees* and employ no helpers; and, generally speaking, hucksters, peddlers, newsboys, bootblacks, etc.

224. Unpaid family worker ("NP").—A wife, son, daughter, or other relative of the head of the family who works regularly and without wages or salary on the family's farm, in a shop or store from which the family obtains its support, or on other work that contributes to the family's income (*not including housework or incidental chores*) is to be returned as an unpaid family worker. Examples are: A son working regularly and without wages on his father's farm; a wife working regularly without salary in her husband's store or office; a girl assisting her mother regularly without wages on sewing done in the home for a clothing factory.

EMPLOYMENT

225. Column 28. Whether actually at work yesterday ("*Yes*" or "*No*").—This question is to be asked with regard to all persons for whom an occupation has been entered in column 25. It will ordinarily refer to the day preceding the enumerator's call, and can be asked in the simple form "Was he at work yesterday?" In case "yesterday" was a holiday or the worker's "day off" or "rest day," the question should apply to his last regular working-day.

236. Column 29. Line number on unemployment schedule.—Every gainful worker for whom the answer "No" is entered in column 28 is to be reported on the unemployment schedule. Enter in column 29 the number of the line on that schedule where this report appears.

The Unemployment Schedule and instructions for filling it are presented as Appendixes in the General Report on Unemployment, Vol. II.

VETERANS

237. Column 30. Veterans.—Write "Yes" for a man who is an ex-service veteran of the United States forces (Army, Navy, or Marine Corps) mobilized for any war or expedition, and "No" for a man who is not an ex-service veteran. No entry is to be made in this column for males under 21 years of age nor for females of any age whatever.

238. Column 31. What war or expedition.—Where the answer in column 30 is "Yes," give the name of the war or expedition in which the man served. The principal military activities in which service will be reported, together with a convenient abbreviation for each which you may use in this column, are listed below:

World War	WW
Spanish-American War	Sp
Civil War	Civ
Philippine insurrection	Phil
Boxer Rebellion	Box
Mexican expedition	Mex

239. Those men are to be counted as "veterans" who were in the Army, Navy, or Marine Corps of the United States during the period of any United States war, even though they may not have gotten beyond the training camp. A World War veteran would have been in the service between 1917 and 1921; a Spanish-American War veteran, between 1898 and 1902; a Civil War veteran, between 1861 and 1866.

240. Persons are not veterans of an expedition, however, unless they actually took part in the expedition. For example, veterans of the Mexican expedition must have been in Mexico or Mexican waters at the time of the expedition; veterans of the Boxer rebellion, in China or Chinese waters at the time of the rebellion, etc.

241. Persons in the military or naval service of the United States during peace times *only* are not to be listed as veterans.

FARM SCHEDULE NUMBER

242. Column 32. Number of farm schedule.—If the head or any member of the family operates a farm or any other place for which you have filled out a farm schedule, enter in this column the number of the farm schedule filled out for that place. Make this entry opposite the name of the member of the family operating the farm. If the place is one that is not locally regarded as a farm (see pars. 147, 148), write "N" after the schedule number. Thus, if your twenty-fourth farm schedule covers a greenhouse establishment in a city, you should enter the farm schedule number "24–N," the "N" indicating that the family living on this place is not to be counted as a farm family. Likewise if the farm operator *does not live on the farm*, but lives in a near-by village or elsewhere, write "A" after the farm schedule number, thus, "65–A."

SCHEDULE FOR THE BLIND AND FOR DEAF-MUTES

272. The purpose of this schedule is to obtain the names and addresses of all persons found by the enumerators to be blind or deaf-mutes, together with certain additional information.

273. When to be used.—Upon the completion of the enumeration of each family, be sure to ask before leaving the house whether any one among the persons you have enumerated is either blind or a deaf-mute. If so, enter the name, post-office address, and other facts called for on the supplemental schedule, in accordance with the instructions printed on that schedule, provided the person comes within the class of blind or deaf-mutes there defined.

INDEX

Arrangement of index.—While the main topics and certain outstanding minor topics are presented in alphabetical arrangement, the nature of the material, with hundreds of intricate cross-classifications, is such that the subdivisions of each main topic can be more effectively presented in classified form.

Dates.—Where no date is mentioned, statistics are presented either for 1930 alone or for 1930 and 1920. Where earlier data form an important part of a table, the dates are given in the index.

Abbreviations.—To indicate the classification of the total population by sex, and by color, nativity, and parentage, the following abbreviations are used:

Sex only	S
Color, nativity, and parentage only	CN
Sex, in a combination with color, nativity, and parentage	S–CN
Data by sex and by color, nativity, and parentage (not in combination)	S; CN

Urban-rural.—In practically all the tables indexed under the designation "Urban-rural," the figures are presented in three classifications, as follows:

Urban population:
Rural-farm population:
Rural-nonfarm (or village) population:

City groups.—The following statements will facilitate the finding of statistics for any specific city:
The cities of 500,000 or more (13 cities) are as follows: Baltimore, Boston, Buffalo, Chicago, Cleveland, Detroit, Los Angeles, Milwaukee, New York, Philadelphia, Pittsburgh, St. Louis, and San Francisco.
The cities of 100,000 or more (93 cities) are listed on page 115.
The cities of 50,000 or more (191 cities) are listed by States on pages 199–201.
The cities of 25,000 or more (376 cities) are listed by States on pages 116–132.

Adult population, *see* Age, Citizenship, Illiteracy, and School attendance.
